Message Body:

Enfield has the potential to grow to a Moderate Sustainable Growth town over the lifetime of the County Development Plan having regard to its strategic location along the M4 "Knowledge Corridor" and on the Dublin/ Sligo rail line and its proximity to Maynooth University. An opportunity to provide capacity for high end land hungry employment and secondary education facilities exists at the eastern end of the town. Enfield would provide a healthy and attractive place to live, work and study in. Enfield is a very strategic location for development as it is on the M4 and also on the rail line. The development of good employment fits in with sustaining a healthy economy and a reduction of commuting and thereby climate change.

Noel French, [redacted]
