**Message Body:**

I believe instead of spending money on building granite walls ( at st Enda's Park ) etc - we should be building metro and Luas lines so we don't have to have cars. It is crazy in a city the size of Dublin, the age of Dublin that we have the poorest means of public transport. We have so many ramps in the city to get cars to slow down but if there were adequate tram or metro lines there would be no need for cars
