The new metro should extend to include knocklyon. This area is only served by the bus and with increased housing plans in the area and very expensive housing, I do not understand why this area continues to be ignored. We need to be included in he metro or luas so that we can avail of these and leave our cars at home not to mention all the school and college goers who need this support. The bus route is slow and also meets a lot of traffic meaning such a short journey

of these and leave our cars at home not to mention all the school and college goers who need this support. The bus route is slow and also meets a lot of traffic meaning such a short journey can take over an hour at peak times. Please stop ignoring our area as we have paid huge amounts to live here! The M50 continues to worsen in terms of congestion and public transport is the only way forward for our area. Best regards, Colette Kinsella. 0876417040.
