Another point for IDA to invest in Ardee possibilities

an IDA masterplan for Ardee, say a national pilot project where they look at all aspects of Ardee life, from schools to childcare to leisure facilities and what future employers want in a certain small town in this country. Then they could develop, say two ready to go factory outlets, and see can they attract businesses to the town. A case of build it and then they will come.

Submission

That ardee co Louth is included :

Ardee has proven over the last no of years to have a low no of people receiving social welfare, but now we need the input of the IDA to come into our Town to help create local employment this would have a great positive Knock on affect to local trade and in turn create more employment. Ardee is in a great location Dublin/Belfast corridor . Having the IDA in Ardee Town is a must rather than a wish.

Commuter/Tourism

Ardee Mid Louth at the moment is very congested , but with the western by pass soon to start this should go some way to help that situation, however with the growing population and the amount of people leaving our area to commute to Dublin it is time that we look at reopening or having a new Train station in Dunleer co Louth, having this service in our area would not only help take vechicles of the road but would help take people into our area for Tourism and help the tourist industry, we here in Ardee Mid Louth have lots to offer any tourist.

Hospital

Here in the mid Louth area , is a prime location for a new hospital that would service Monaghan Meath Louth Cavan area and surrounding area, having this hospital in the amid Louth area would take great pressure of Our Lady of Lourdes Drogheda , that at present services all the above area and parts of Dublin, with growing population our lady of Lourdes will come under increasing pressure and this will only cause major issues for all .

Kind regards
