From: John McGrath [REDACTED]
Organisation: Athlone Chamber of Commerce and industry

Message Body:

Infra structure is a major facilitator to the growth of any urban centre.

The dual rail to Dublin on the East West Economic Corridor, the water supply infrastructure for up to 2040 and beyond and the wastewater infrastructure now identified and that required up to 2040 should be policy

MATERIAL AMENDMENT 16(5):

Identify infrastructural investment priorities and promote a joined-up approach to the delivery of key enabling infrastructure to facilitate the sequential delivery of strategic residential, employment and regeneration development areas

Dual Rail – Water supply and Waste Water treatment.

Each of these are already identified as necessary by the various state and semi-state bodies. We need to ensure policies are followed through on for an effective and meaningful Regional Growth Centre
